roads off	A good community spirit. This has recently been emphasised by several amazing community led campaigns, including Bhackthewhiteborse, ralamity and the success in stopping the awful proposed Cala homes development, the money raised to buy the Sports Club's tractor and the ongoing Scout Hut campaign. I like the fact that the Stonesfield is still small enough (just) to retain its village feel, but large enough to support a shop, a pub (when oper line), a garage, a sports and social club and many other well attended clubs and societies. I appreciate our green spaces, for example the Common, Stocky Wood, Bags Bottom, the Evenlode, Akeman Street heallorments, and all the many local bridle and footpaths. I continue to support the committes' sobjective to to set hep ub reopen for the benefit of the community. I wish to protect and preserve all the green spaces that I ve listed above in question 2. Also to protect and preserve our lack of street lighting, we don't need more light pollution in fact we need to reduce it even more. We must protect and preserve our Cotswold status which keeps us in the vess of Outstanding Natural Beauxy, this helps us fight against unualitable housing such as the awful proposed Cala Homes development. We need to protect and preserve our existing Constituency or couple with where ever Charlbory is placed because of roog standing and traditional Cotswold connections.	1	1 1	1			I don't like the Charity Farm development, the design is totally out of Keeping with the existing village. It's as if an dego of town estate from somewhere like Bicester has been dumped onto the edge of our beautful village. However new houses can be sympathetic to their surroundings, Sunderland Close is a great example of good, well though through planning and building. Pollution levels in the River Evenlode are tragically high, t's a local environmental distater. The increase in road traffic is having a negative effect on the village and the villager, more pollution, more danger to pdestrians. Our narrow streets were not designed for high levels of through the village which have no foot paths, school childron, walkers, cyclists and hosce index are becoming more and more vulnerable. The increase in antisocial behaviour, i suspect this has increased in line with increase in housing and population. 	Friendly people in a reasonably sized village. Some good facilities	1		1	1	Allotments. Playing field. Green space around the village. Access to woods and river	1		1	Failure of owner of White Horse to act reasonably	1					1		
	Small enough to feel village like, enough diversity to make it interesting, facilities, although we do need the pub	1		1		Local jobs, the small industries should not have been driven out, shop, pub, school	1		1	Insufficient low cost housing, no small workshop facilities to encourage employment and diversity. Infilling, expansion of the village boundaries			1		A defined village boundary, pub restored, small workshops, no more overly expensive houses, more affordable homes, either shared ownership or local authority or housing assoc.	1		
roads off	Location in the countryide, dark skies and it's general quietnes (though recent building projects have damaged this element). Services in the village (though current tack of a pub is al diaced) are good and accessibility to London and Oxford is ideal. Stonesfield is largely picturesque as is the countryide surrounding.	1	1		1 1	I would like to avoid streetlights to allow us to still see the stars at night. The gene belt around the village is essential and I would be very disappointed to see additional expansion heypond the current boundaries. Access to footpaths needs to be maintained (& improved if possible- its would be good if farmers actually made an effort to maintain some of the brief eways). Stomelid of minary is a terrific resource for families of young children and must be supported.	1 1			Not a lot. Lack of a pub is a problem. Some of the more recent planning approval decisions for the development of large houses and especially the conversion of the Farley Lane offices have frankly been disgraceful.	1		1		I would like to see the pub re-open and for it to be actively supported by the whole villege. This does not include individuals visiting and nursing a glass of ap water all night in the bar'. Decisions on planning applications need to considered better with the wider benefits that any development will bring to the community being explained rather than simply condicing recommic impacts. Thames Water to be heavily lobbled to improve their services and efforts to clean up the River Developed.	1 1	1

Laughton Hill/Ridings/Pond Hill and roads off	Easy access to good walks. No street lighting. Retains (only just) a village feel.	1	1			No more building, the village is being swamped with new housing. Preserve the night sky by avoiding street lights. Protect our access to the countryside and improve the water quality in the river.	1 1			Excessive street signage. Too much building. 20mph zone and the proposals for the giveway/stop at Laughton Hill The awful development at 1 Farley Lane which nobody supported and is so out of Keeping.			1	1	Improve water pressure, reduce sewage pollution of river. Stop building new properties everywhere.	1	1	
Hill/Ridings/Pond Hill and	The character of the buildings and beautiful surrounding countryside. The village is fairly quiet and people are very friendly.	1 1				I would like to protect the fields on entry to the village from all sides and preserve the river/woods and Roman Villa.	1			The housing near the sports pitches and some of the more recent housing developments on the edge of the village. I don't particularly like how large the village is (and may get).			1		I would like to see infill development, instead of development on the edge of the village. I'd like this development to be limited.	1		
	Green space Community Proximity to beautiful countryside and city like Oxford - perfect location	1 1				Access to footpaths and woodland areas Village hall and clubs/groups Busservice	1			1 Lack of pub - would like to see more activity on this Some inconsiderate parking around the village - particularly where some residents seem to have 3+ cars per house	1							
Laughton Hill/Ridings/Pond Hill and roads off	The community support	1				The school playing field, playground and sports field, the green outside the White Horse. All our communal open spaces	1	1		Lack of a pub or cafe, bakery, butchers	1 1				Pub!	1		
Laughton Hill/Ridings/Pond Hill and roads off	Friendly community, access to terrific walks, close enough to bigger villages, not overly 'commercialised' and there's a real enseed community. Great to see the new 20mph zone.	1 1					1			No publit was such a great place to meet people. I worry about more housing development and pressure on the old severage system. The water in the Evendoet is already in a whill condition. Without significant infrastructure investment, large scale development could overload an already fragile severage system. I am unconvinced that a village of this size can absort to om unch social housing. With virtually no jobs in the village and not good transport options, workers need to drive out to find or get to work. This in't a place that can absorb large numbers of people on benefits as there isn't a lot to do during the day	1		1		Would be great to have a cafe (applaud the Saturday cafes for various charities). Increased housing in all the willage puts pressure on the roads (perhaps a bike lane up the straight could be a good idea). Would the village consider a solar farm such as all Charlbury. Increasing our ecooptions, very important. Bring back the re-cycling binsl			
Laughton Hill/Ridings/Pond Hill and roads off	It has a good social coherence	1				The size! If it gets any bigger it stops being a village, and becomes suburban sprawl. Our narrow roads and amenities can't support more housing				The pressure on expansion, the traffic, the current lack of pub					If development takes place it has to be starter homes for locals. More 4 bedroom houses do nothing to add anything to the community	1		
Laughton Hill/Ridings/Pond Hill and roads off	The walks in countryside	1				Small village charm				Lack of pub or cafe space, too many road signs.	1				The area in front of the shop is very gray and tired looking and could really do with a facellit to make this part of the willage look more inviting. Also the graphics on the shops enormous windows are avaid. If ware as a village we could fund some locally designed graphics (perhaps children from schools could input?). As a focal business owner "I do happy to give some money to the gardening club to help fund some plants or a tree at least in that area.			
Laughton Hill/Ridings/Pond Hill and roads off	Very peaceful					The pub reopening would be great .	1			I think the potholes especially on Greenfield road.		1			An outdoor gym with equipment would be helpful.			
Woodstock Rd/Combe Road and roads off	It is a lively village and the access to nature walks is good. Bus service is better than many villages. The Stonesfield Slate.	1 1			1	Protect its village status - no large developments which will turn it into a dormitory. Protect its Cotswold character by avoiding inappropriate developments.				There is a lot of anger about. There is no pub.	1				Open the pub. Small and carefully designed developments of cheaper housing so young families can afford yo live here.	1 1		
	A quiet peaceful village with friendly residents. Lots of nice interesting different walks in each direction.	1 1				Keep the village to a reasonable size with out large out of keeping new developments. We are a village not a suburb of Witney or Oxford. Don't let street lights come to the village.	1			Continued threat from development & developers.			1		Get more people involved in running events, groups. More for teenagers to do but that's a very difficult problem.
